

# Coding

## Enable the convenience windows and sunroof opening

You need vcds / vagcom to do this

### Operating Windows and Sunroof with Remote\*:

*\*Note, the sunroof can only be opened (tilted) with the remote, when activated in MMI  
(CAR>WINDOW>CONVENIENCE>SUNROOF>ON)*

You need to continuously hold the remote button for the function to operate.

In VCDS

[Select]

[46 - Cent. Conv.]

[Coding - 07]

[Long Coding Helper]

Click on each of the Byte numbers in line 3 and you'll see the selectable options :below.

Check the box for "Comfort Operation: Remote Control active"

[Transfer Coding]

[Do It!]

[See other vcds codings](#)
