

Electronic Control Modules (ECU)

Coding for the engine control unit ECU

Coding table, engine control unit (AKC)

The code is composed as follows:

Country / Emissions

0 3 X X X	: ECE 1504/83A
0 5 X X X	: EUII D3
0 6 X X X	: TLEV
0 7 X X X	: LEV
0 8 X X X	: CIS/China
1 0 X X X	: EUIII
1 1 X X X	: EU4
2 6 X X X	: Steam pressure critical countries/Mexico/Taiwan/Korea
2 7 X X X	: Brazil

Drive train / Auxiliary functions

5 X X	: Front-wheel drive with traction control (ASR) Front-wheel drive with Electronic Stability Program (ESP)
6 X X	: 4-wheel drive without Electronic Stability Program (ESP)
7 X X	: 4-wheel drive with Electronic Stability Program (ESP)

Note:

Vehicles with "ASR" or with "ESP" have a pressure switch in the centre

Electronic Control Modules (ECU)

console labelled "ASR" or "ESP".

Control units pre-coded as EUIV cannot be recoded.

Gearbox

- 1 X : 6-speed manual gearbox
- 5 X : Automatic gearbox ZF 5-speed
